

CAREER GUIDANCE AND INFORMATION

OFFERED BY THE ECONOMIC CHAMBERS

Successful career and educational orientation for young people is a joint task between parents, schools, career advice, business and society.

The economic chambers in Austria support young people with a team of experienced educational and career advisors in finding out their strengths and interests. Teachers are supported in accompanying their students in their career orientation.

BASIC SERVICES

- Individual advice
- Group classes in schools
- Industry presentations

VIRTUAL COMPANY TOURS

VR glasses, smartphones or tablets are used as „windows“ into the virtual apprenticeship world → www.wko.at/vbb

BASIC SERVICES

The **basic offers** include, among other things, individual consultations, consultations for school classes, workshops for young people and teachers, industry presentations, workshops, online interest profiles and initial consultation as part of educational fairs.

TALENT CHECKS

In most federal states, **young people** can take part in testing/advice free of charge. These are organized by the chambers of commerce and sometimes take place in schools and/or in the chambers of commerce. These test offers are offered almost universally for **young people in the 7th and 8th grades**. The parents of the young people are often involved in the subsequent personal advice.

→ www.wko.at/talente-check

POTENTIAL ANALYSIS

After a three-hour test procedure, the evaluation takes place in a personal consultation with a psychologist. The potential analysis is offered for **young people, adults and companies** and is subject to a fee.

→ www.wko.at/lehre/potenzialanalyse

PRACTICAL WORK DAYS

Real-life encounters in various forms as part of the practical work days **enable students from the 8th grade** onwards to get to know careers, correct incorrect career ideas and self-critically examine their personal interests. The company receives support in personnel selection through practical work days.

BIC.AT – ONLINE CAREER INFORMATION OFFERED BY THE ECONOMIC CHAMBERS

In addition to descriptions of **over 2,000 professions including training opportunities**, BIC.at offers important assistance for initial orientation with the “Choice of Career” and the “Interest Profile”. → www.bic.at

VIRTUAL COMPANY VISITS

Using the latest **virtual reality (VR) technology**, users can surf through the professional world “in the middle of it instead of just being there”. Can be used on all devices: from VR glasses to laptops, smartphones or tablets. A modern tool also for career orientation lessons in schools. In addition to the **WebApp, VR glasses** are available in the WK career information centers throughout Austria.
